

NORWAY TO GET SPECIAL TREATMENT AS NEUTRAL

United States Ready to Deal Liberally in Matter of Foodstuffs and Other Commodities.

REASSURED BY DR. NANSEN

Admits Past Laxity of His Government, but Gives Pledge to Prevent Imports Reaching Teutonic Allies.

WASHINGTON, September 11.—Norway is likely to fare better than other neutral under the rulings of the export administrative board. Dr. Fridtjof Nansen, head of the Norwegian economic mission, is understood to-day to have made such strong guarantees that the United States is ready to deal liberally with his government in the matter of foodstuffs and other commodities needed.

Other neutrals likely will not receive the same consideration. It was stated authoritatively. For months the State Department has known that certain of the neutrals outside of Sweden were not adhering strictly to their professed neutrality. Norway has received protests against some of the things of benefit to Germany that have slipped by Norwegian officials. Dr. Nansen came here expressly to straighten out this complication.

It is stated on highest authority that Dr. Nansen admitted that in the past there had been negligence in dealing with imports from the United States. Because of this laxity, Germany profited to a large extent in the way of getting raw materials and foodstuffs. But this has been ended, it is said.

LICENSE WILL BE ISSUED WITHIN NEXT FEW DAYS

The Norwegian government to-day stands pledged absolutely to prevent any imports from reaching Germany or her allies. The exact nature of the pledges are known only to the State Department and members of the export board, but it is stated that they are so well thought of that licenses for a number of cargoes destined for Norwegian ports will be issued within a few days.

Dr. Nansen's frankness in admitting the laxity of his government at earlier stages in the war and his assurances that such breaches will not occur in the future have made a deep and favorable impression upon this government. As one official put it to-day, "the Norwegians did not come over here with the idea of 'putting something over,' as has been the case in some instances."

The chances of Holland getting the use of any of her grain ships for at least two months, if at all, have diminished with the exposure made by Secretary Lansing. While the exports board and the shipping board have been aware all along of the information in the hands of the State Department, it was felt that no decisive action should be taken until Secretary Lansing was ready to spring his coup. The disclosures with regard to Sweden's breaches of neutrality were said to-day to forecast drastic action by every branch of the government to prevent absolutely the importation of all commodities to neutrals where satisfactory guarantees were not forthcoming.

COMMANDEERING ONLY STEP OPEN TO THIS GOVERNMENT

The first step in this new policy likely will be the commandeering of the 150 Dutch ships now held in American ports. While neither officials of this government nor members of the special mission from the Netherlands will make any statement, it is generally understood that no satisfactory progress has been made in the negotiations for using the Dutch ships to aid in provisioning the world, as suggested by the exports board, and that commandeering is practically the only step left for this government to take.

CAMP LEE MEN GET TASTE OF DRILLING

(Continued From First Page.)

Twelve motor cars are expected shortly for use of the headquarters of the division, and forty additional motorcycles will be received also. Each regimental headquarters will be given one motor car and two motorcycles. The roads are being put into shape, and soon traveling over the camp will not be attended with the mud and dust experienced since the camp was opened.

When the quota from Allegheny County, Pa., was received, among the number was a man of rather dark complexion.

SENSATION OF THE YEAR IN MEDICINE ON SALE HERE

Calotabs, the New Calomel Tablet That Does Not Grip, Nauseate Nor Salivate, Proves an Interesting Surprise to Local Druggists.

The horrors of Saturday night Calomel-taking are a thing of the past. According to local druggists, the new de-nauseated calomel tablet is a grand success, the triumph of modern pharmacy. Not the slightest danger or unpleasantness attends its use, and yet it exhibits all of the liver-cleansing qualities of the old-style calomel. There can be no doubt that calomel is the most valuable and universally useful of all medicines, and now that its objectionable qualities have been removed, its popularity will have no bounds. One tablet on the tongue at bedtime, a swallow of water, no taste or unpleasantness whatever. The next morning you are feeling fine, clear, clean, splendid appetite. Eat what you please—no danger. In ordering the new de-nauseated calomel tablets ask for "Calotabs." Sold only in original sealed packages, containing twenty doses, price thirty-five cents. Your druggist has authority to refund your money if you are not perfectly delighted with Calotabs.—Adv.

At the Movies To-Day

COLONIAL—"The Tanks at the Battle of the Acre," and "Fatty Arbuckle, in 'His Wedding Night'." BRADDOCK—"Alice Brady, in 'Betty Ross'." ISIS—"Douglas Fairbanks, in 'The Sign of the Cross'." ODEON—"Kathryn Williams and House Peters, in 'The Highway of Hope'." REX—"Billy West, in 'Cupid's Rival,' and 'The Adventurers'." L. U. B. I. D.—"Jack Mithal, in 'High Speed' and 'The Lure of the Circus'." VICTOR—"The Lady from Egypt," and W. S. Hart, in 'The Desert Man'."

plexion, and when he reached the barracks he was sent back to headquarters. It being believed that he was a negro. It developed, however, that the man was a Cuban, and he was ordered back to his barracks by Colonel Lee. The man took his experience with apparent good nature.

OFFICERS KEPT ON GO FROM MORNING TO NIGHT

All of the officers at the camp are kept on the go from morning until night, with the thousand and one things that come up and have to be acted on by headquarters of the division and the various regimental headquarters. Among the busiest men at the camp is Colonel W. H. Waldron, the chief of staff, who goes about the grounds to straighten out matters here and there. So completely has he worked out his system of administration, however, that little occurs that is not easily rectified. General Cronkhite went over the grounds to-day and viewed the men at drill, to his evident satisfaction.

NEW JERSEY INFANTRY REACHES CAMP M'CLELLAN

ANNISTON, ALA., September 10.—The population of Camp McClellan was increased to-day by 2,000 officers and men, comprising the Fifth New Jersey Infantry, who arrived early this morning, detaining in record-breaking time. The trains were brought to a stand, men and luggage were unloaded, and the trains moved out of the station in less than five minutes each.

The men lined up to march to the camp in full war equipment and made a fine picture, with flags flying and band playing. They were the first soldiers to march in close formation to camp.

Over a thousand men now are scattered over the 15,000 acres of land in the government reservation. The government has appropriated \$125,000 for target ranges, including target and range pits and gun bases.

Work has started on a \$1,000,000 base hospital covering sixty acres of ground and comprising seventy buildings, all single story structure, connected with roofed corridors and slatted walkways. Patients may travel in wheel chairs without getting under roof. The buildings, each thirty-seven by seventy-five feet, will cost \$8,000 each. In addition, there will be numerous smaller buildings, such as nurses' quarters, offices, laundry, garage, storehouses, chapel and mortuary.

Virginia men had their first regular drill period to-day. They will continue drilling not less than forty hours a week as prescribed by the War Department.

The camp of the District of Columbia's squadron of cavalry has been visited by almost as many Alabamians as the camp of the Richmond Blues, who are the most popular men in camp by long odds. Members of the ancient organization have many friends in Anniston, and plans are being made for their entertainment at homes and clubs in the city.

Agicultural Bulletin.

Farmers whose names are on the mailing list of the Department of Agriculture will receive a September bulletin dealing particularly with the serious aspect of the shortage of farm labor has assumed in this State. The marketing of the wheat crop occupies a great deal of attention, as does information relating to the production and marketing of the peanut crop and other information in reference to the size and probable market for the apple crop.

RUSSIANS OFFER STRONG OPPOSITION TO GERMANS

"Death Battalion" Defeats Invaders South of Riga and Forces Them to Retreat.

ON OFFENSIVE IN ROMANIA

Cadorna Continues to Hammer Away at Austrian Positions, With Enemy Vigorously Defending Themselves. French Consolidate Gains.

[By Associated Press.] On the Northern Russian front, the Russians are now offering strong opposition to the Germans who are endeavoring to press their advantage farther eastward from the Riga-Dvina line. Thirty-two miles northeast of Riga, near Segevd, "a death battalion" has even defeated the Germans and forced them to retreat to the south, while along the Burnitsk line to the Pskoff Railroad the Russian rear guards are giving strong battle to the advanced Teuton contingents.

In the Roumanian theater, the Russians and Roumanians have again assumed the offensive, delivering repeated attacks with large effectives against the Teutonic allied positions in the Trotus and Otuz Valleys. No details of the fighting have come through, except from Berlin, which asserts that the combatants met in hand-to-hand encounters, and that the Russo-Roumanian forces were repulsed.

Around Most San Gabriele, General Cadorna continues to hammer away at the Austrian positions with the enemy vigorously defending themselves. No claims to further progress on this sector are made by the Italian official communication, but it is announced that attempts by the Austrians, in counterattacks to lessen the intensity of the Italian offensive have been repulsed.

To the south, on the Carso Plateau, the artillery duel is still of great proportions. GERMANS CEASE THEIR VIOLENT COUNTERATTACKS Northeast of Verdun, the French troops have consolidated the positions taken from the German Crown Prince in the Pusses and Caurieres woods in the fighting of Saturday night and Sunday, and the Germans, doubtless because of their enormous losses, have ceased for the time being their violent counterattacks.

On the British front, the British likewise have consolidated trenches captured Sunday southeast of Hargicourt. They are also keeping up in various sectors their successful trench raiding operations and staving similar attacks made by the Germans.

Daily the operations in the Macedonian theater are growing in importance. To the north of Lake Malik French troops have forced the Germans to retreat toward Lake Ochrida.

Hold Boys for Forgery. Eli Bloom, David Ruben and David Mullans, boys under the age of eighteen years, were arrested yesterday by Detectives Kellam and Bryant charged with forging checks, payable to themselves, with the name of Louis Caplan as indorser. They were sent to the Detention Home, and later were released on bond.

Fall Terms Opens To-Day.

The fall term of the Supreme Court of Appeals convenes to-day at Staunton. The docket is not particularly heavy this term, but many decisions that were argued at the spring term at Wytheville last June await decision. It is thought that the court will render thirty-five or more decisions, many of them having an important relation to tax problems.

Law and Equity Opens Term.

The Law and Equity Court opened its September term yesterday, at which time the docket was called and cases set for trial throughout the term. J. H. Rivers, Jr., qualified in the court to practice law.
